SUMMARY

Senior React Native Developer with 6+ years of experience building scalable cross-platform mobile applications using React Native, TypeScript, and modern JavaScript ecosystems. Experienced in delivering production-grade applications across startup and enterprise environments with expertise in mobile architecture, API integration, performance optimization, App Store and Play Store deployments, and AI-assisted development workflows. Over the years, also gained experience working with frontend and backend technologies including Angular, Node.js, and .NET while contributing to scalable application development.

SKILLS

Mobile Development: React Native (CLI/Expo), Android

Frontend: React.js, Angular

Backend: Node.js, .NET

State Management & Data Fetching: Zustand, React Query, Redux

Databases & Services: MongoDB, MySQL, Firebase

Mobile Expertise: App Store Deployment, Play Store Release, Push Notifications, Deep Linking, Performance Optimization

Developer Tools: Git, GitHub, Bitbucket, Docker, Postman, Jest, Android Studio, XCode

AI-Assisted Development: Cursor, Claude

EXPERIENCE (5+ Years)

Flabs

Bangalore, India

Software Engineer

June 2025 – Present, Full-time Remote

- Developed and shipped scalable in-house mobile applications using React Native and TypeScript while maintaining high performance and low production error rates.
- Implemented reusable architectures, modular components, and scalable code practices to improve maintainability and long-term product scalability.
- Leveraged AI-assisted development workflows to accelerate feature delivery, improve code quality, and optimize engineering productivity.
- Collaborated with product managers, backend engineers, and designers to deliver production-ready mobile features aligned with business goals.

Bacancy Services Pvt. Ltd.

Gujarat, India

Software Engineer

Aug 2023 – May 2025, Full-time

- Built and maintained cross-platform mobile applications using React Native, delivering scalable and high-performance user experiences.
- Conducted internal knowledge-sharing sessions on React Native development practices, contributing to engineering growth and team collaboration.
- Integrated AI-assisted tooling and modern workflows to improve development efficiency and reduce repetitive engineering tasks.
- Worked with QA and development teams to troubleshoot production issues, optimize app performance, and improve release stability.

Koboldo Inc. (Startup Company)

California, USA

React Native Developer

Apr 2023 – Aug 2023, Full-time Remote

- Contributed to the development of a startup-focused e-commerce platform with real-time bidding features using React Native and React.js.
- Worked across frontend and backend systems using React.js and Node.js to support rapid product development and evolving business requirements.
- Collaborated directly with stakeholders and product teams to transform business requirements into scalable mobile features and user experiences.

Softices Consultancy Pvt. Ltd.

Gujarat, India

Software Development Engineer

Jun 2020 – Mar 2023, Full-time

- Developed and delivered multiple cross-platform mobile applications using React Native for clients across different business domains.
- Built scalable mobile features, integrated REST APIs, and collaborated with backend teams to deliver seamless user experiences.
- Contributed to native Android development projects, expanding expertise in platform-specific mobile implementations.

PROJECTS

NFT Social | *React Native (iOS/Android)*

- Developed a Web3-based social media platform for NFT trading and community engagement using React Native and decentralized blockchain integrations.

TRS | *React Native (iOS/Android)*

- Built a secure group stock trading platform enabling users to manage stock transactions, wallet balances, and trading activities through a mobile application.

HHA | *React Native (iOS/Android)*

- Developed a multilingual car service booking platform with Google Maps integration, enabling users to discover and manage automotive services efficiently.

Plates | *React Native (iOS/Android)*

- Built a food-focused social networking platform enabling users, restaurants, and chefs to share posts, recipes, and community updates.

Visual Registration System | *Android*

- Developed a workforce and project management application featuring time tracking, checklist management, reporting, and ERP integrations.

EDUCATION

Veer Narmad South Gujarat University

B.Sc. Computer Science — CGPA: 7.09/9.00

Gujarat, India

Jun 2017 – Sep 2020
